

PRO STOCK

56th annual Mac Tools U.S. Nationals

presented by Lucas Oil, September 1-6, Indianapolis

Bob Glidden electrified the grandstands and pit area with his experience behind the wheel of Jim Cunningham's Ford Mustang. Even though the nine-time Indy winner's 6.703 best fell short of the 6.631 bump, he gave Blue Oval fans hope for the future.

Glidden's plans are to "be an extra pair of eyes" with Cunningham's in-house engine development program, and he plans to five at the rest of the events on the 2010 NHRA Full Throttle Drag Racing Series schedule.

"Even though these cars leave a lot harder than they did since the last time I drove [at the 2003 NHRA Finals]. I felt very comfortable behind the wheel," said Glidden.

"I can't thank Jim Cunningham enough for getting Ford back into Pro Stock, and I want to help him in any way I can."

Nine-time winner' Bob Glidden made a welcome return to competition by jumping behind the wheel of Jim Cunningham's pro Stock Mustang. Even though Glidden didn't make the show, Ford fans across the country were ecstatic to hear that Glidden will be driving for Cunningham for the rest of the year
